askobid

YOUR TRADING SUCCESS

askobid.com is a trade name operated by Webgine Ltd, authorized and regulated by CySEC (Cyprus Securities Exchange Commission), with License No. 108/10, which operates under MiFID (Markets in Financial Instruments Directive).

askobid.com is a new kind of broker, founded by top trading experts on the basis of service, resources and technology on the belief that knowledge enables clients to learn how to become successful traders.

askobid.com provides its clients with the ultimate package – a unique and advanced trading platform, superior customer service and unrivaled educational material, which is supplied by the askobid.com Academy

REGULATED BY

MiFID

Markets in Financial Instruments Directive

WHO IS ASKOBID?

askobid.com was founded on the principal that knowledge is what profits in the foreign exchange market. With supreme educational tools provided by the askobid.com academy, an easy to use platform, constant live news reports and the highest quality level of customer service – askobid.com provides each of its clients with a custom-tailored toolkit for a successful trading experience.

The askobid.com Academy provides a wide range of educational tools and a rich learning environment for both traders who are new to the market as well as experienced traders. It combines information about the Forex market, examples of trading strategies and market analysis with content on traders' psychology and quizzes.

Exclusive reports throughout the day, 24/7 real-time news and over 30 commentaries a day are provided by the askobid.com content division – all designed to bring the information and energy of a New York trading floor to the trader's fingertips.

Trading should be a seamless experience for both new and advanced traders. askobid.com offers that with the askobid.com platform for all traders and for more experienced traders the askobid.com Metatrader4 platform which will be available starting May, 2010.

www.askobid.com/expo

The askobid.com platform is intuitive, easy to use and combines innovative features with a fully customizable display. It offers all currency pairs trading as well as stock indices and commodities trading.

The platform features instant execution, the latest news and advanced charting software, easy navigation between majors, crosses and exotic pairs, one-click order execution and live statistics-based trading information on deals.

THE ASKOBID ACADEMY

The one key that is missing in the world of foreign exchange trading is education. There is a lack of information on the workings of the market and how to trade – and that is why we provide complete access to the askobid.com Academy - a facility brought to askobid.com by AroundFX and offered to askobid.com traders.

The askobid.com Academy provides traders with a full library of educational resources – articles, webinars, quizzes and more – that cover every aspect of trading. Additionally, the Academy covers the markets in real-time, giving the trader a play by play of all the news that is effecting markets as well as daily commentary and constant daily reports.

The Academy suits both new traders and advanced traders – as the information supplied is for traders of all levels.

THE ASKOBID ACADEMY

- Currency trading from A to Z
- Stock indices and Commodities trading
- Examples of trading plans and strategies
- Inside The Trader's Mind: the psychology of trading
- Test Yourself quizzes in all levels
- Free webinars and interactive workshops
- Articles on all trading topics
- The latest market trends and techniques

YOUR TRADING
ADVENTURE.
ASKOBID.COM**

The askobid.com platform is designed to fit traders' needs. It supports all currency pairs trading, stock indices and commodities; it is fully customizable and flexible; provides the most

user-friendly technology and it

includes a number of the most unique features in the market. Since the platform is web-based it can be accessed from anywhere at any time.

Real-time quotes, customization and one click trading make the askobid.com high-performance platform the best in the business. It also features complex order capability, streaming news, a live calendar and customizable charting. Trading on the platform is easy and intuitive.

However, perhaps the best feature of our platform is the innovative Trade Machine. The Trade Machine can give you an edge. It allows you to quickly find and trade any currency pair, stock index and commodity and shows you the statistics of how other askobid.com traders are positioned. This valuable market sentiment indicator can help you understand how to generate trading strategies and plans.

ASKOBID METATRADER4

available starting May 2010

askobid.com's premium traders can register to the MetaTrader4 askobid.com platform starting May, 2010. MetaTrader4 is a powerful trading platform designed for advanced traders with a sharp focus on technical analysis.

The software also comes equipped with a number of powerful trading tools which can be extremely beneficial to the individual trader. askobid.com MetaTrader 4's software package allows one to automate trades based on technical patterns which emerge in various markets.

Using technical analysis and charting patterns, askobid.com MetaTrader 4 automatically spots key support and resistance levels, and capitalizes on them.

askobid.com MetaTrader 4 also carries pre-programmed strategies called Expert Advisors, which enables traders to customize their own trading strategy in the platform, allowing trades in
